- **Antifreeze**

Call your local Bodensteiner Dealer and get signed up for our bulk products today!

**Offering FREE DELIVERY on orders over 100 gallons\***

*\*Excluding DEF*

**Bulk tank gravity fill kits available starting at \$342**

Staying on top of maintenance is key to your operation; our bulk oil program with special pricing and an on-site storage system makes maintenance easier and more accessible than ever.

#### BENEFITS OF BULK OIL:

- **You'll save money** – buying bulk costs less than buying several drums at once. You see the savings immediately.
- **Maintenance will be simpler** – using a tank is a lot faster and easier than dealing with drums. Not only will you be more organized, you'll be able to control inventory since the tank is easy to meter.
- **There's less waste** – fewer containers make bulk oil an environmentally friendly option. And you won't have to deal with the stress of empty containers scattered all over your shop.

## Plus-50™ II engine oil

Get up to 500 hours\* with our premium engine oil.

John Deere engineers have been constantly improving our engine oil to be without question the best engine oil you can put in your John Deere equipment. And Plus-50 II takes engine oil to the next level. It lasts up to 500 hours in your John Deere equipment, providing superior protection in high-heat engines.

### Plus-50 II is:

- Designed and tested by John Deere engineers
- Recommended by engineers who design, develop, and test John Deere engines
- Formulated to perform up to 500 hours in your John Deere engine
- Proven to reduce downtime
- Made with a next generation low ash CK-4 formula
- Backward compatible for all current applications
- So good it's guaranteed

\*Lasts up to 500 hours when used with John Deere filters. Refer to owner's manual for maintenance schedule. JDQ-78X dyno engine test performed by Southwest Research Institute in San Antonio, Texas.

## Hy-Gard™ transmission and hydraulic oil

*Don't risk it with anything less.*

Your machine depends on hydraulic oil to do so much – and if your oil can't protect your entire system just right, you may find yourself with a down machine.

That's why you need John Deere Hy-Gard transmission and hydraulic oil. It's developed and tested by John Deere engineers who make sure it's the best option for your equipment. And it's been proven time and time again.

Don't risk it with lesser hydraulic fluids. Make sure you have the best. Make sure you have Hy-Gard.

### Hy-Gard™ is proven to:

- Prevent wear on high-torque, heavy-loaded gears and bearings
- Protect against rust and corrosion – in the field and in storage
- Provide proper friction for wet brakes and clutches, reducing slippage, wear and chatter while promoting high braking capacity
- Protect against final drive wear due to anti-wear additives for gears
- Keep your system free of sludge and clogs
- Prevent metal to metal contact

JOHN DEERE

## High-stake sweeps

John Deere High Productivity™ (HP) sweeps

**Attack weeds and topsoil compaction like never before.**

We designed our HP sweeps family to give you the most reliable, durable productive sweeps on the market. Their low-profile, curved-shape design:

- Allows for longer wear life and shape retention.
- Delivers extra-weed-cutting power for more productivity and savings.
- Performs at higher speeds (7–10 mph) covering more ground in less time.
- Creates less draft and soil disturbance.
- Is compatible with most field cultivators.

**Available with bolt-on and quick-change options.**

*See us for details.*

**BUY NOW, PAY LATER**

# ARE WORN NOZZLES COSTING YOU?

## WORN NOZZLE SPRAY PATTERN

## NEW NOZZLE SPRAY PATTERN

### UNDER APPLICATION

- Reduced yield
- Inadequate weed, pest, or disease control
- Repeated trips over the field

### OVER APPLICATION

- Increased input costs
- Crop damage
- Excessive residue carryover

Spray nozzles are some of the smallest and most overlooked pieces of equipment on a sprayer, but they can have the greatest effect on accuracy, efficiency, and drift potential.

Worn spray nozzles can increase application rates as well as change distribution patterns causing under and over application, impacting your bottom line.

# TRIGGER A CHAIN REACTION

Make your cornhead stronger — and last longer — with **RowMax™**, a new retrofit solution from John Deere.

Designed exclusively for the 700C/FC cornheads and available as a retrofit for MY12+ 600C/FC cornheads, RowMax **boosts row unit life by up to 50%** with an advanced gathering chain featuring 12 additional links, two more sprocket teeth, and upgraded solid alloy bushings. In addition, if you replace your worn stalk rolls with opposed or intermeshing stalk rolls, you'll get 25% more wear life thanks to an improved wear coating.

Cover more territory on your farmland — and lower lifetime ownership cost — by upgrading your cornhead with an innovative, RowMax retrofit kit from John Deere.
